PROFESSIONAL SUMMARY

Software Developer and Information Systems undergraduate seeking an international internship opportunity. Hands-on experience in web and mobile development, with strong willingness to learn, collaborate, and grow in multicultural environments. Motivated to contribute to real-world projects while improving skills in software engineering best practices.

PROFESSIONAL EXPERIENCE

Web Developer – Quality Digital (Aug 2025 – Present)

- Contributed to the development and maintenance of websites and e-commerce platforms using React, Next.js, Node.js, VTEX, JavaScript, and TypeScript.
- Collaborated with an international team on VTEX's largest B2B and B2C project (ODP Business).
- Wrote unit tests using Jest and supported deployment using Vercel.
- Worked in Agile environments using Scrum, Kanban, and Jira.

Mobile Developer – Fitmass S.A. (Jul 2024 – Jul 2025)

- Contributed to the development of mobile and web application features using Flutter, Firebase, and AWS.
- Refactored legacy code and modularized reusable components following Clean Code principles.
- Assisted in implementing automated tests, contributing to improved application stability.
- Participated in app publishing processes for Google Play Store and Apple App Store.

EDUCATION

Bachelor's Degree in Information Systems – UniCuritiba (Jul 2024 – Jul 2028)
Relevant coursework: Algorithms and Data Structures (Java), Object-Oriented Programming, Databases (MySQL), Computer Networks, Information Security.

SKILLS

Programming: JavaScript, TypeScript, React, Next.js, Node.js, Flutter, Dart, HTML, CSS
Databases: Firebase, MySQL, DynamoDB (basic SQL and NoSQL)

Tools: Git, GitHub, AWS, VS Code, Android Studio, Figma, Jira
Methodologies: Agile, Scrum, Kanban
Languages: English – Intermediate (B2)

PROJECTS

TaskiToDo – Task Management App

- Flutter-based task management application with offline storage.
- Features include creating, editing, searching, and deleting tasks.
- GitHub: github.com/nicolasvitorino/TaskiToDo
